1. I have reviewed the referenced memoranda and do not see the operational justification for approving of this transaction.

2. Inasmuch as the [REDACTED] would present a considerable problem for the Agency, I do not believe that the Agency should undertake this transaction unless the Deputy Director (Plans) believes that for operational reasons it is in the Agency's best interests to do so. If this is the case, and the Deputy Director (Plans) will so state, I will immediately consult with the Deputy Director or the Director and attempt to obtain proper approval.
